

Lost & Found Students: Allowing All to Use Digital Research Methods

Debby Kermer & Wendy Mann
University Libraries
Digital Scholarship Center (DiSC)

dsc.gmu.edu
datahelp@gmu.edu
2701 Fenwick Library

Students lack computer & data skills that many methods courses expect.

Students get lost...

Many lack basic **computer, technical, and data** skills.
Many lack **access** to software or specific hardware.

"The class didn't seem to start at the beginning."
"The instructor went too fast for me to follow."

"The software won't work on my computer."
"I can't even get the file from Blackboard to open."

"Everyone will think I'm stupid if I ask questions."
"Software makes it feel like two classes in one."

Consider **these students** when **planning** your course.

...the Library helps find them.

Meet with a DiSC Consultant:

- learn about our research **guides** and student support
- review new **software** options and digital tools
- find **teaching** resources, lessons, and OER textbooks
- discuss how to address common student **problems**

DiSC offers **Instruction**:

- customized **in-class** workshops
- **guest lectures** on data topics
- **workshops** for student groups

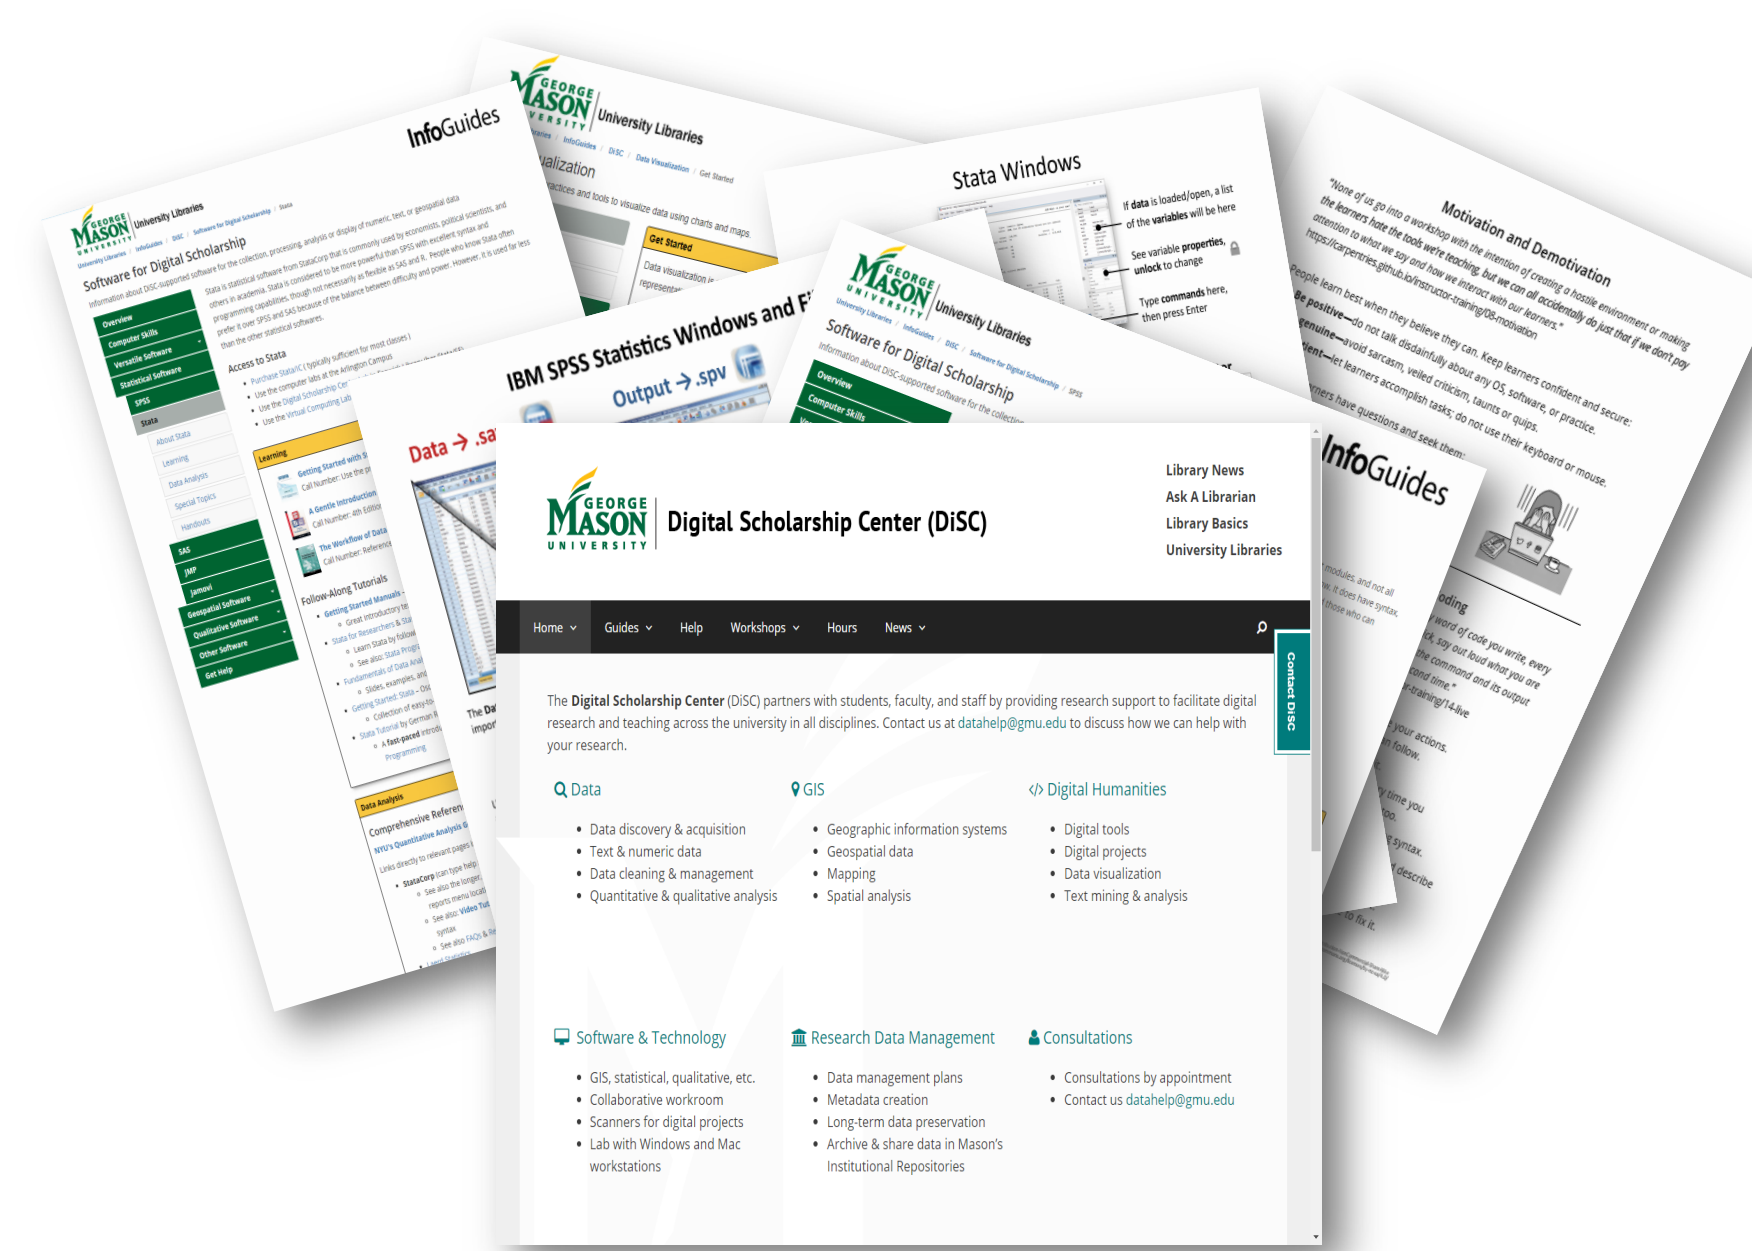

If you teach **Research Methods** classes,
contact DiSC today: datahelp@gmu.edu

DiSC has a computer lab for drop-in use and workshops.

2701 Fenwick Library
M-F 10 a.m. - 6 p.m.

DiSC provides help guides and handouts on common issues.
