Self-Assessment of Teamwork

Instructions: Think about your experience working with your team and how you interacted with others on the team. Respond to the following four questions; use 3 – 5 complete sentences for each response and provide details/examples.

Responses will be evaluated on sufficient length, level of detail, self-insight, and quality of writing. **These responses will NOT be evaluated on the "quality" of your teamwork skills.** Instead, assessments earn higher points when they demonstrate self-awareness and reflection --- regardless of the quality of your teamwork skills.
